

# Cyber Incident Response Plan Workshop

Gather your planning team to create or strengthen your cyber incident response plan

## Features:

- This workshop uses K12SIX's incident response planning framework (It's fine if your plan uses a different approach.)
- A complete incident response planning template based on K12SIX's incident response planning framework your team can complete step by step
- An opportunity to plan with members of your incident response team
- Through numerous group discussions, an opportunity to learn from other districts, your colleagues, and state and federal government experts (when available)
- An opportunity to test your plan with your team through tabletop exercises
- Our unique workshop approach is structured to meet you wherever you're at in the planning process

## Benefits:

- Create a better and more complete plan by working with your entire incident response planning team
- Increases the chances of recovering from a cyber incident more quickly, inexpensively, and with less disruption
- Realistic tabletop exercises help identify your plan's weaknesses and strengths
- Builds team effectiveness and confidence by testing your plan against common simulated threats
