WI-FI Performance Optimization

Available to you through

***Do you know if your WiFi network is working properly?
Are users losing connectivity or experiencing slow performance?***

WHAT DOES WYEBOT DO?

1. Proactively eliminates WiFi issues
2. Optimizes your network before users ever know there is a problem
3. Analyzes wireless traffic and reports on factors affecting reliability and speed
4. Provides faster, more reliable wireless connectivity for students and staff
5. Gives you an overall picture of the health of your WiFi environment

School districts must have an active Power over Ethernet (PoE) port at locations where Wyebots are to be located.
