ALTERNATIVE EDUCATION

Contracted Services AE01-AE07

OVERVIEW

CESA 5 Alternative Education provides school districts an alternative placement option for students. The programs focus on each student's emotional, social, and behavioral skill sets while working collaboratively with resident school districts to promote students' academic standing.

OUR PROGRAM

Student behavior is addressed using various evidence-based strategies, restorative practices, and direct instruction through our Human Relations course. Our small student-to-staff ratio, access to a social worker, and individualized programming allows students to collaborate with adults on their behavioral challenges.

OUR PHILOSOPHY

Our philosophy is that all students have the ability to create successful changes in their behavior. We believe that positive change for students is supported through a structured setting that emphasizes behavioral skill-building, improving social interactions, educational programming, and family involvement.
